

Description: Pal 1.10.2.0 and Pal Communicator 1.2.10322

Products involved: Many DLM Windows Mobile and Windows CE models

Distribution Date: November 29, 2010

Distribution scope: Externals

Pal™ 1.10.2.0 and Pal Communicator™ 1.2.10322

1. COMPATIBILITY

- 1) Pal is for use in Falcon X3, Elf, Memor, Skorpio, Pegaso, Kyman, and Falcon 4400 (on Windows CE for Falcon 4400 only).
- 2) Pal Communicator is for use on Windows XP, Windows Vista 32-bit and 64-bit, and Windows 7 32-bit and 64-bit operating systems.

2. ENHANCEMENTS

- 1) No enhancements as this is the first release.

3. CORRECTED DEFECTS

- 1) No corrected defects as this is the first release.

4. KNOWN ISSUES

- 1) Pal Communicator – Top line menu options **File | Device | Pal Client configuration** are not supported in this version. In Windows 7 environment, if device is updated with a configuration saved from another device, Pal on device reports an error indicating that the file cannot be read. You can work around this issue by:
 - a. Removing Pal from target device. Use System Remove Programs (recommended) or clean boot device.
 - b. Re-install Pal by using Pal Communicator top line menu. File | Device| Install Pal on device.

5. FILES

- | | |
|-----------------------|---|
| - Setup.EXE | Microsoft Installer executable file |
| - PalCommunicator.MSI | Pal Communicator installation script file |
| - Pal_1.10.2.0.CAB | CAB file for the installation of Pal client on mobile devices |

6. OTHER NOTES

Other Dependencies:

- 1) ActiveSync or Windows Mobile Device Center must be installed on the PC.
- 2) DLM provides two installer files needed to install the PAL Communicator: Setup.exe and another called "PalCommunicator.msi." As long as both of these files are in the same folder, the installer can be launched by double-clicking either file
- 3) The user must enable the scanner, enable wedge mode, and enable desired bar code symbologies. Also the Carriage Return (CR) needs to be added to the bar code postfix if it isn't enabled by default.
- 4) .NET Framework 2.0 or better must be installed on the PC. This may be downloaded from the Microsoft website.
- 5) Devices that are known to be missing .NET runtime: Falcon 44xx WM.
